

Furniture Care and Cleaning

To maintain and protect the beauty of your Legacy Classic Furniture, we suggest the following:

Positing and Placement

- Do not place furniture over heating or air conditioning vents.
- Do not place furniture in a damp environment.
- Avoid placing furniture in direct sunlight to prevent fading.
- Do not place plastic or rubber items directly in contact with wood furniture. Plastic placemats and rubberized feet on alarm clocks and lamps, for example, can discolor the finish. Use felt feet or other protective pads under these items.
- Use a protective pad when placing hot objects such as serving dishes or when using a ballpoint pen on wood tops.

Cleaning

- Wipe up spills promptly with a soft, clean cloth, blotting gently. If left, liquids can cause damage to the finish.
- Remove household dust with a soft, clean cloth.
- Clean with a damp cloth. A quality furniture cleaner can be used or a small amount of a mild dishwashing liquid.
- Legacy Classic Furniture does not require the use of furniture polish.
- Minor scratches can be touched up with Mohawk Finishing Product repair kits or other quality furniture polish/repair kits that are available at most home improvement stores.

Safety and Durability

Safety is the most critical element in children's furniture. A baby's crib or a child's bed is more than a piece of furniture. It is an emotional purchase parents are trusting will protect their children. We are proud to advise Legacy Classic Kids furniture is thoroughly and cautiously tested before, during, and after production. This ensures our designs and materials are safe and that we continually meet or exceed government standards.

Our Safety Standards

- Legacy Classic Kids is 100% compliant with all federal regulations regarding lead and phthalates, as well as other metals such as Antimony, Arsenic, Barium, Cadmium, Chromium, Mercury, and Selenium.
- Legacy Classic Kids conducts safety testing with our employees and with an unaffiliated quality control company. In accordance with US Consumer Product Safety Commission (CPSC) regulations, compliance testing is also certified by a third party lab, Bureau Veritas.
- Legacy Classic Kids Cribs, Changing Tables, and Toddler Beds meet voluntary American Society for Testing and Materials (ASTM) safety standards in addition to required US and Canadian government standards. Legacy Classic Kids is also a member of the Juvenile Products Manufacturers Association (JPMA).
- Legacy Classic Kids Bunk Beds and Loft Beds meet voluntary American Society for Testing and Materials (ASTM) safety standards in addition to required government standards. Dressers, Bureaus, Chests, Door Chests, Bookcases, and Desk Hutches include anti-tip restraint hardware and meet voluntary ASTM anti-tip guidelines.
- Legacy Classic Kids collections are additionally compliant with California Air Resources Board (CARB) regulations.
