# YOUNG'S SPACE

ColombiniCasa

Ogni casa cresce, muta aspetto
e si confronta con bisogni sempre
nuovi. Interpretando le necessità
della vita quotidiana, la collezione è
pensata per trasformare la cameretta
dei bambini, la stanza dei teenager
e gli spazi di servizio di un’abitazione,
in ambienti multifunzionali e personali,
che cambiano il modo di interagire
con lo spazio casa.

Every home grows, changes its look
and adapts to ever-changing needs.
The collection interprets the demands
of everyday life and is designed to
transform kids’ bedrooms,
teens’ rooms and utility rooms into
multifunctional and personal spaces
that change the way people interact
with the home.

Le camere dei teenager sono mondi personali, da vivere in innumerevoli momenti della giornata. Contenitori, librerie, armadi ridisegnano lo spazio in modo che accolga esigenze di studio, condivisione e privacy. E insieme lo esaltano perché racconti stili di vita, passioni, sogni e progetti.

Teenagers' rooms are personal worlds experienced at all times of day. Storage units, bookshelves and wardrobes redesign the space to accommodate study, socialising and privacy needs. But they also enhance it, telling of lifestyles, passions, dreams and projects.

# Color Pop-Up.

La gamma delle finiture della collezione si arricchisce di nuove suggestioni. Nasce il Laccato Touch, una superficie opaca e resistente, capace di regalare al tatto una sensazione vellutata e conferire agli ambienti un tono di sofisticata eleganza. Anche la palette cromatica si amplia, offrendo nuove possibilità espressive.

Scopri le finiture disponibili → **P.250**

Nelle camere Young il colore è versatile, proprio come le mutevoli personalità dei teenager: può essere utilizzato per aggiungere tridimensionalità agli spazi e far apparire anche un ambiente dalle dimensioni ridotte molto più ampio, creativo e di carattere. Può sottolineare intere nicchie oppure dettagli, può introdurre contrasti o ricreare atmosfere con tinte naturali. Parola d'ordine: esprimere.

The range of finishes in the collection is enriched with new inspirations. Lacquered Touch is introduced: a matte, durable surface that offers a velvety feel to the touch and brings a tone of refined elegance to interior spaces. The color palette is also expanded, providing new expressive possibilities.

Discover the available finishes → **P.250**

The colour in Young bedrooms is versatile, just like teenagers' changing personalities: it can be used to add three-dimensionality to the spaces, making even a small room appear much larger, imaginative, and full of character. It can highlight large niches or the smallest details, introduce contrasts or recreate atmospheres with natural hues. Watchword: expressing.

# Suddividere lo Spazio

## Dividing space

Teenagers need a flexible, multifunctional space that can be used for a variety of purposes. Designing with the systems of the collection allows the creation of genuine rooms within rooms. Interpreting the “bedroom as home” and therefore how teenagers typically feel.

I teenager hanno bisogno di uno spazio trasversale, con funzioni diverse, per svolgere attività differenti. Progettare con i sistemi della collezione consente di creare vere e proprie stanze all’interno di stanze. Interpretando quel sentire tipico di quest’età per cui “camera è casa”.

## Andiamo.

È il momento in cui si scopre il gusto del viaggio: partire, andare lontano, fare da soli. E poi tornare, in una camera pronta a custodire ricordi di strade, luoghi, volti. Perché le prime esperienze di libertà meritano uno spazio che le accolga, ogni volta, al ritorno a casa.

**Let's go.**
It is the moment when the pleasure of travel is discovered: setting off, going far away, doing things independently. And then returning, to a bedroom ready to hold memories of roads, places and faces. Because first experiences of freedom deserve a space that welcomes them home, every time.

# Ottimizzare lo Spazio

## Optimising space

They grow, and so do their passions. Teenagers' rooms need space to hold objects, collections and personal items. The systemic collection allows the best use of floor and wall space. Every storage element becomes the perfect place to contain everything they hold in their hearts.

Insieme a loro stanno crescendo le loro passioni. Nelle camere dei teenager serve spazio per contenere oggetti, collezioni, raccolte. La collezione sistemica consente di sfruttare al meglio gli spazi a terra e quelli in parete. In ogni contenitore un posto perfetto per tutto quello che ha posto nel cuore.

## Storing

No teen's room is ever purely utilitarian. It is also symbolic and should reflect, express, and connote their personality. The wardrobes in the collection satisfy this need with a variety of door colours and graphics, as well as a design allowing their alternation with characteristic niches and bookshelves.

La camera di un teenager non ha mai solo un ruolo funzionale. Ha anche un ruolo simbolico, deve accordarsi con la sua personalità, esprimerla, connotarla. Gli armadi della collezione soddisfano questo desiderio, con un'ampia scelta di colori e grafiche dell'anta, e con una progettazione che permette di ritmare l'armadio insieme a nicchie e librerie.

## Displaying and stowing

Prone to disorder and chaos, determined and eccentric by nature. Teenagers are like that. The Pepita panelling system and Up&Up bookshelf perfectly express these tendencies with some solutions for tidying up, and others for showing off. Part hidden and part displayed: designs that brilliantly solve the typical contradictions of this age group.

Tendenti al disordine e al caos, decisi ed eccentrici nel carattere. I teenager sono così. Il sistema boiserie Pepita e la libreria Up&Up esprimono queste loro inclinazioni con soluzioni utili al riordino e altre destinate all'esposizione. Un po' nascondere e un po' esibire: progetti che risolvono brillantemente le contraddizioni di questa età.

# Studiare

## Studying

Study will keep our teenagers busy for some time.
A supportive space is essential to their success. And its ability to cater to different approaches is just as important: there are those who need peace and quite, and those who need to feel “embraced” by the things they love most.
The collection has thought up numerous ways to carve out study areas in the bedroom. Not just chairs and desks, but real, custom-designed spaces.

Lo studio impegnerà a lungo i nostri teenager. Un ambiente capace di favorirlo è essenziale per la sua riuscita. Ed è essenziale anche che soddisfi approcci diversi: chi ha bisogno di isolamento e concentrazione, chi di sentirsi “abbracciato” dalle cose che ama di più. La collezione ha pensato a tante e differenti proposte per ritagliare zone studio nella camera: non solo sedie e scrivanie, ma veri e propri spazi progettati ad hoc.
